# Making Informed Nitrogen Fertiliser Decisions on the Murray Plains

Following an exceptionally dry and late start to the 2024 growing season, making informed decisions on nitrogen fertilisation of crops will be important on the Murray Plains in 2024.

To assist with making appropriate nitrogen fertiliser decisions, Murray Plains Farmers is hosting a workshop at the Pretoria Hotel. The workshop will be facilitated by Tony Craddock and Emily Chambers from Pinion Advisory and is sponsored by GRDC's RiskWi\$e program.

AGENDA		
TIME	TITLE	PRESENTER
9.00am	Welcome	
9.15am	<b>Morning Session</b> <ul style="list-style-type: none"><li>Is additional N fertiliser required in 2024?</li><li>How much N carryover was there from 2023? (Deep soil test results in 2024)</li><li>Economics of Nitrogen fertiliser at current fertiliser prices</li><li>Which product? - Urea, UAN or SOA?</li></ul>	<b>Tony Craddock</b> Agribusiness Consultant, Pinion Advisory <b>Emily Chambers</b> Graduate Agribusiness Consultant, Pinion Advisory
10.45am	Morning Tea	
11.00am	<b>Morning Session continued</b> <ul style="list-style-type: none"><li>N decision making tools</li><li>Is it worth fertilising crops to achieve higher grain protein?</li><li>What is our crop yield potential in 2024?</li></ul>	<b>Tony Craddock</b> <b>Emily Chambers</b>
12.30pm	Lunch and Close	

WHERE AND WHEN
<b>VENUE:</b> Pretoria Hotel 50 Randell Street MANNUM SA 5238
<b>WHEN:</b> Friday 5th July 2024
<b>TIME:</b> 9.00am to 12.30pm
Morning tea and lunch included.
